

SchoolHub SA — feature verification matrix

Cyber Developers · SchoolHub SA

Commit: ca8089b · **Date:** 9 October 2026

Status key: **Tested** = implemented and covered by automated tests or an observed production check. **Built** = implemented, end-to-end proof incomplete. **Partial** = incomplete or held. **Config** = works only after credentials or a licence switch. **Unavailable** = do not describe as production-ready.

Area	Capability	Status	Evidence
Access	Email and password session	Built	Auth pages and session version
Access	Forced password change	Built	/account/password , mustResetPassword
Access	Invitation email	Config	Resend or school SendGrid. Production test mail was accepted and seen in a controlled inbox during the October 2026 mail check
Access	Admin set password	Tested	tests/admin-password.test.ts , role limits in canSetUserPassword
Access	Permission grants and denies	Tested	tests/permissions.test.ts
Access	Tenant scoping	Tested	Tenant helpers and permission tests
Licence	Public check path	Tested	Licence check tests
Licence	14-day grace and failure classes	Tested	Licensing tests. Do not change grace
Licence	In-process daily heartbeat	Tested	Scheduler tests. Production panel showed a successful no-op before the next due time
Licence	First due check after 9 Oct 2026 14:42 UTC	Built	Scheduled for the 15:00 UTC slot on 10 Oct 2026. Not observed in that review
Institution	Settings and branding	Tested	Settings and branding tests

Area	Capability	Status	Evidence
Institution	Terminology school vs college	Built	src/lib/terminology.ts
Institution	Campuses	Built	Campus model and visitor campus
Institution	Departments as an entity	Unavailable	Text field only
Admissions	Public apply and status	Built	Pages and application status copy
Admissions	Deposit block and waiver	Built	admissions-deposit.ts
Admissions	Learner created on accept	Built	application-enrolment.ts
Admissions	Interview appointments	Unavailable	Status label only
Records	Learner file, documents, guardians	Built	Admin and portal pages
Records	SA ID protection	Built	Encryption fields and sensitive permission
Academics	Sessions, classes, subjects, timetable	Built	Admin pages
Teaching	Educator register	Built	Teacher attendance page
Teaching	Gate updates daily attendance	Tested	Gate service and store. Period registers stay manual
Teaching	Assessments, homework, materials	Built	Teacher and learner pages
Teaching	Online exam questions	Built	MCQ, true/false, short answer
Teaching	Report card issue and skip rules	Tested	reportCardBatchSkipReason and issue flow
Teaching	Promotion rules	Built	src/lib/promotion.ts
Teaching	Educator nav groups	Built	Daily / Classwork / Campus. One stale test expects Classwork for attendance
Finance	Invoice, collect, approve, ledger	Built	Finance pages and postApprovedPayment

Area	Capability	Status	Evidence
Finance	Gateway idempotent capture	Built	record-payment.ts row lock and reference check
Finance	Debtors and age analysis	Built	Finance pages
Finance	Reversal with a reference	Partial	Unique index conflict. Not production-ready
Finance	Receipt sequence after suffix	Partial	Falls back to 00001. Not production-ready
Finance	Reverse unposted payment	Partial	Subtracts amountPaid without a posted check
Finance	Concurrent double approval	Partial	No row lock around postedAt
Finance	Fee reminder rules	Built	Screen exists
Finance	Fee reminder schedule	Partial	Job held
Finance	Recurring expense schedule	Partial	Job held
Finance	PayFast, Ozow, Yoco, Paystack	Config	School integration secrets
HR	Employees, leave, timesheets	Built	HR pages
HR	Payroll prepare, approve, finalise	Built	Separate permissions. Double post blocked by postedAt
HR	Leave accrual schedule	Partial	Job held
HR	Biometric clock file	Unavailable	Comment in clock helper
Comms	Announcements and messages	Built	Portal pages
Comms	Resend platform mail	Config	Resolver tests. Production sender confirmed without printing the key
Comms	Inbox delivery events	Unavailable	No webhook. Acceptance is not delivered
Comms	Twilio SMS	Config	Defaults off

Area	Capability	Status	Evidence
Comms	WhatsApp inbox	Unavailable	Public click-to-chat only
Website	Public pages and CMS	Built	(public) and <code>/schoolSlug</code>
Security	Scan, visitors, on site, missing checkout	Tested	Gate tests
Security	Biometric payload	Unavailable	Denied on purpose
Security	Card administration	Built	Admin only
Security	Live security user first login	Partial	Invitation accepted by the provider. Portal walkthrough not done
Compliance	Audit log	Built	<code>/admin/audit</code>
Compliance	SA-SAMS import	Built	Staging and execute
Compliance	SA-SAMS cleanup schedule	Partial	Job held
