

SchoolHub SA — module inventory

Cyber Developers · SchoolHub SA

Generated from navigation, `SYSTEM_MODULES`, pages, and scheduled jobs at commit `ca8089b`.

Page and API file lists: [appendix-pages.txt](#), [appendix-api-routes.txt](#).

Product modules that can be switched

From `src/lib/modules.ts`:

Key	Label	Licence feature	Notes
students	Students	Core	
admissions	Admissions	admissions	
academics	Academics	Core	
attendance	Attendance	attendance	
assessments	Assessments	assessments	Includes homework permission mapping
finance	Finance	finance	
communications	Communications	Core menu	Announcements and calendar
parent_portal	Parent Portal	parent_portal	
student_portal	Student Portal	student_portal	
website	Website Management	Core	
hr	HR	hr_payroll	
payroll	Payroll	hr_payroll	
student_cards	Student Cards	Core mapping via cards permission	Issued under security admin
transfers	Transfers	—	Letters and promotion outcomes, not a full transfer product

Key	Label	Licence feature	Notes
online_classes	Online Classes	online_exams	Meeting URL plus online exam attempts
biometrics	Biometrics	biometrics	Flag only. Scans that carry a template are denied
gate_security	Gate/Security	—	
visitor_management	Visitor Management	visitor_management	
reports	Reports	reporting	Also used for compliance menu mapping
messaging	Internal Messaging	messaging	
sms	SMS Gateway	sms	Off until configured
backup	Backup & Restore	Core	Scheduled run held

Licence flags that are not product modules and default **off**: library, ai_features, whatsapp, api_access, advanced_analytics. SMS and biometrics also default off.

Menus
